OF TOURISM AND  
HOSPITALITY

- Technical Technologist

2025 - present  
SELF-STUDY

- Data Engineer

### SKILLS

- Teamwork
- Critical Thinking
- Attention to Details
- Communication
- Adaptability
- Problem Solving
- Responsibility

### LANGUAGES

- English (Intermediate)
- Russian (Native)

### PROFILE

I'm 24 years old. I have been working as a chef since 2017. For the last 2.5 years, I have worked as a sous-chef and head chef. I took part in opening two restaurants from scratch - hiring and training kitchen staff, working with suppliers, and organizing all kitchen operations.

I have been learning programming for 8 months. I am looking for my first job as a programmer. I'm highly motivated and ready to grow in this field.

### COURSES

#### ● Python

Data types, conditions, loops, functions, error handling, modules, OOP (classes, inheritance), file operations, generators, list/dict/set comprehensions, decorators, working with JSON, async/await, and basics of API usage.

<https://stepik.org/cert/2790949>

#### ● SQL

SELECT, JOINS (inner, left, right, full), filtering, grouping, subqueries, CASE, UNION, views, window functions (ROW\_NUMBER, RANK, OVER), CTEs (WITH), working with NULLs, indexes basics.

<https://stepik.org/cert/2815147>

#### ● HTTP

HTTP methods (GET, POST, PUT, DELETE), status codes (200, 404, 500, etc.), request/response structure, headers, body, cookies, sessions, how the internet and APIs work.

<https://stepik.org/cert/2773872>

#### ● Version Control with Git

basic Git commands (init, clone, add, commit, push, pull, merge), working with branches, resolving conflicts, basic GitHub workflow.

Working on a personal project that simulates logistics company operations.

Learning tools such as Kafka, Debezium, DBT, Docker, and Airflow in the process.
